

Boss™ Ground Joint Seal

GROUND JOINT Positive Metal-to-Polymer Seal

- positive metal-to-polymer seal
- leakproof seal forms when the metal head of the stem makes contact with the patented polymer seat in the spud
- non-metallic polymer seat resists most chemicals found in manufacturing facilities (reference corrosion resistance chart on pages 613-619)
- recommended for steam service up to 230°C
- easy to seal
- *plated steel and / or iron*
- use with Boss™ clamps in this catalogue
