Holedall™ / Sanitary Assemblies

Flow Chief stainless steel food grade fittings and internally swaged hose assemblies are designed for various pharmaceutical and food handling applications, including processing of beer, wine, juice and dairy products. Designed to comply with various sanitary approvals, these fittings are available in a range of styles such as BSM, CIP and triclover.

Specifically designed as a coupling system, the correctly engineered combination of hose and fitting will ensure trouble free operation suitable to your application whilst meeting statutory requirements.

Features:

- 304 stainless steel
- Meets FDA and USDA sanitary standards
- Flow Chief internal expansion (IX) fittings are only to be used with Flow Chief stainless steel ferrules.

Contact Dixon™ for fluid transfer compatibility
